KAPLAN BAR REVIEW

LEGALLYFIT

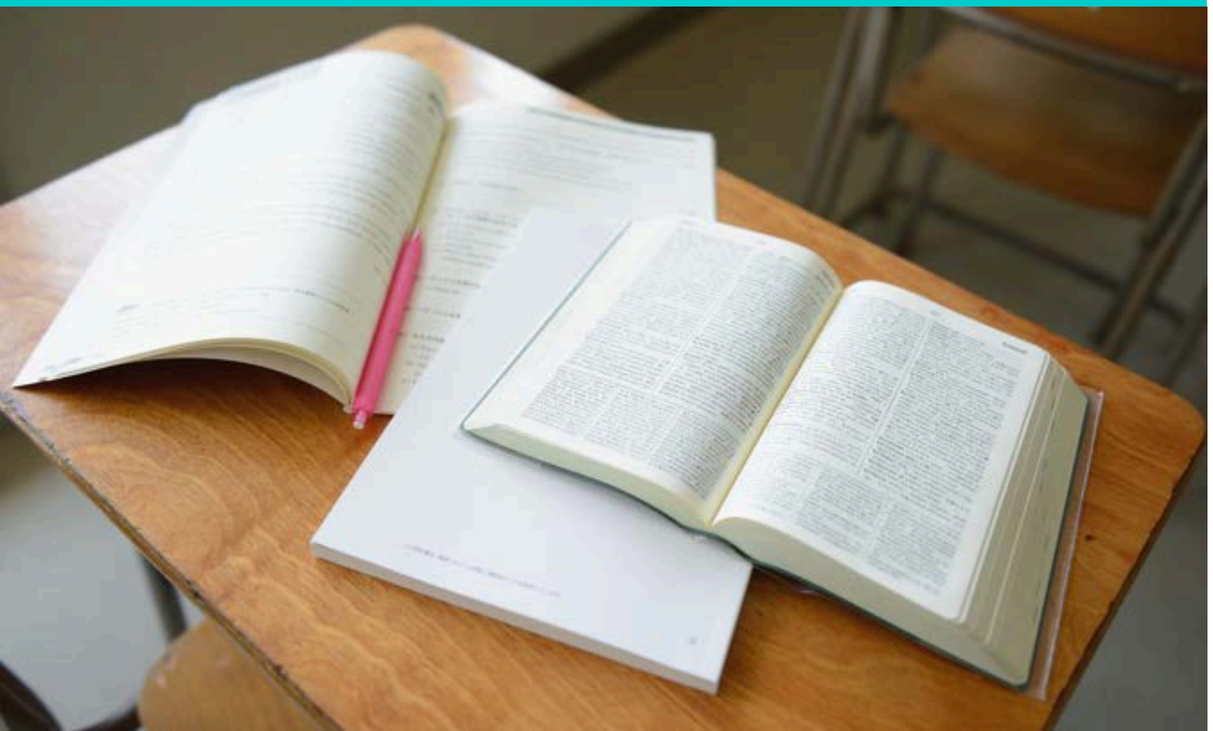

Themis Bar Review

Quimbee

Every company has the same core resources.

The question is: how effective are they?

MATERIALS

WHY IT MATTERS

90% of bar prep is spent using the company's materials. You must choose materials that you easily digest, are cleanly organized, and easy to navigate. This promotes progression and long-term memorization.

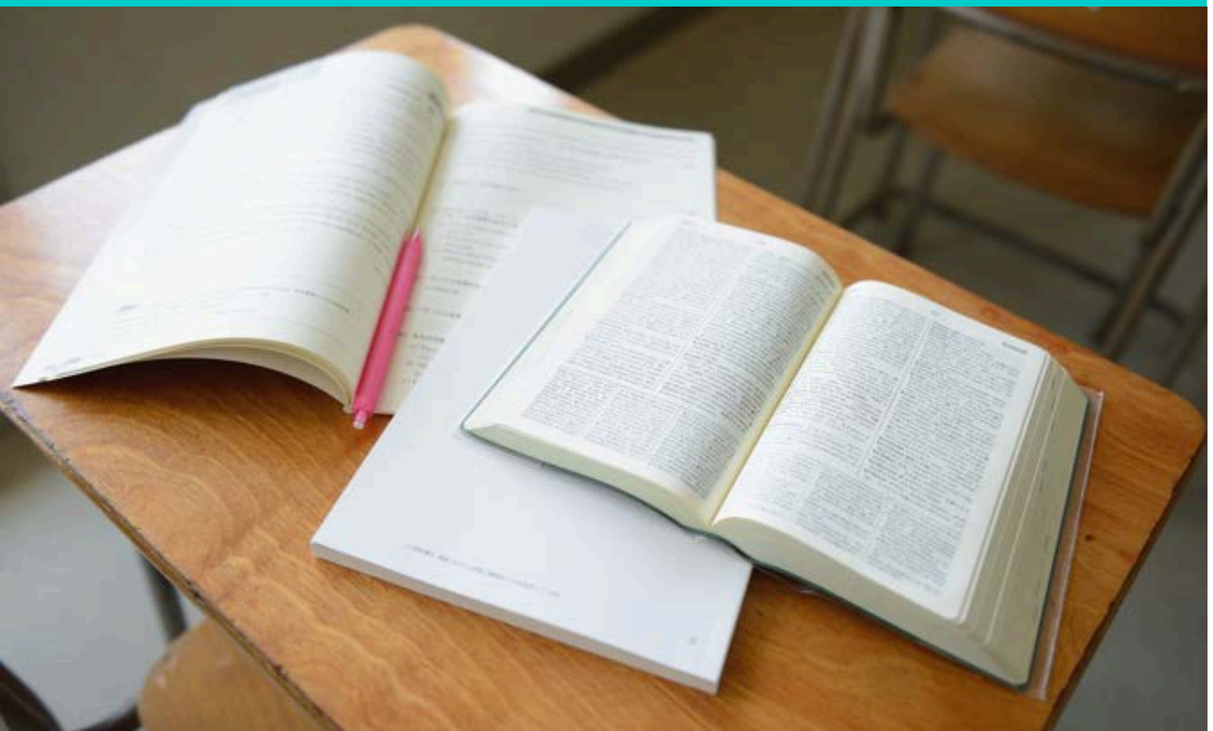

COMMON ISSUES

- ⊗ Materials are inconsistent
- ⊗ Outlines are excessively long with no prioritization
- ⊗ Lecture videos are boring and ineffective

LEGALLYFIT

- ☑ Lectures are live class recordings vs podium style
- ☑ Outlines are condensed and prioritized
- ☑ Materials are consistent and aligned.
- ☑ Legally Fit has unique Folder System™

MATERIALS

THE PROOF IS IN THE PUDDING!

“The materials were honestly a lifesaver. The lectures felt like I was in class, not just listening to someone read off a podium, and the outlines actually cut through the noise and told me what mattered most. I can’t imagine doing bar prep without the Folder System — it gave me a way to see the big picture and then zoom in when I needed the details. Instead of wasting hours trying to figure out what was important, everything was clear and consistent. It saved me so much time and let me actually focus on learning.”

STRATEGY

WHY IT MATTERS

Bar Prep companies actually vary in their approach and philosophies on how to properly prepare students for the bar exam. t's imperative that you choose a company that aligns with your learning style.

COMMON ISSUES

- ⊗ Imbalanced approach to learning vs. practice
- ⊗ Forcing students to juggle multiple subjects
- ⊗ Assigning closed book exams too early

LEGALLYFIT

- ☑ Equal importance on learning and practice
- ☑ One subject at a time - 3 days per subject
- ☑ 70/30 open book practice vs. closed book
- ☑ Legally Fit Essay, PT, and MBE formulas

SUPPORT

WHY IT MATTERS

Bar prep companies also vary in the support they provide. Some push you straight into the deep end, others give you floaties, and a few offer hands-on lessons. Every student needs support, it is just a question of how much.

COMMON ISSUES

⊗ Companies simply offer limited or no support.
